

Alex Turner

Senior Full Stack Engineer

alex.turner@email.com | (415) 555-0192 | linkedin.com/in/alexturner | github.com/alexturner | San Francisco, CA

PROFESSIONAL SUMMARY

Full Stack Engineer with 8+ years building scalable, high-traffic web applications using React, Node.js, and cloud-native architectures. Track record of leading cross-functional teams, reducing infrastructure costs, and delivering high-impact features from design to production. Passionate about developer experience, clean code, and continuous performance improvement.

EXPERIENCE

Senior Full Stack Engineer

Stripe, San Francisco, CA

Jan 2021 – Present

- Architected real-time payment dashboard processing \$2B+ monthly transactions using React, GraphQL, and Node.js
- Led monolith-to-microservices migration reducing API latency by 40% and improving deploy frequency 3x
- Implemented CI/CD pipeline with GitHub Actions cutting deployment time from 2 hours to 15 minutes
- Designed and built multi-tenant authentication system supporting OAuth 2.0 and SAML SSO for 500+ enterprise clients
- Mentored 6 junior engineers, introduced pair programming culture, and established team coding standards

Full Stack Engineer

Airbnb, San Francisco, CA

Mar 2018 – Dec 2020

- Built dynamic search and filtering system serving 150M+ monthly users with React and Elasticsearch
- Developed RESTful APIs with Express.js and PostgreSQL, optimising critical query response time by 35%
- Contributed to the shared React component library adopted across 20+ product teams
- Implemented server-side rendering using Next.js reducing Time to First Byte by 45%

Software Engineer

Dropbox, San Francisco, CA

Jun 2016 – Feb 2018

- Developed real-time collaborative document editing using WebSockets and operational transformation
- Improved front-end bundle performance by 50% through lazy loading and strategic code splitting

KEY PROJECTS

Payment Dashboard v2 — Real-time React + GraphQL dashboard processing \$2B/mo with sub-100ms p99 latency

Microservices Migration — Decomposed 400k-line monolith into 18 services; zero-downtime cutover over 6 months

Component Library — Built and maintained design-system library with 80+ components used by 20+ teams

TECHNICAL SKILLS

Frontend	React, TypeScript, Next.js, Vue.js, Redux, Tailwind CSS, Webpack, Storybook
Backend	Node.js, Express, Python, Django, GraphQL, REST APIs, gRPC
Databases	PostgreSQL, MongoDB, Redis, Elasticsearch, DynamoDB
DevOps	AWS (EC2, S3, Lambda, EKS), Docker, Kubernetes, Terraform, GitHub Actions, Datadog
Testing	Jest, React Testing Library, Cypress, Pytest, k6 load testing

EDUCATION

B.S. Computer Science

UC Berkeley

2012 – 2016

CERTIFICATIONS

- AWS Certified Developer – Associate
- Google Cloud Professional Developer
- MongoDB Certified Developer
