

Maria Santos

Full Stack Engineer

maria.santos@email.com | (512) 555-0284 | github.com/mariasantos | linkedin.com/in/mariasantos | Austin, TX

PROFESSIONAL SUMMARY

Versatile Full Stack Engineer with 6 years delivering end-to-end web solutions in fast-paced startup and enterprise environments. Expert in building responsive, accessible UIs and robust backend services. Proven ability to own features end-to-end, communicate across teams, and maintain high-quality deliverables on tight timelines.

EXPERIENCE

Full Stack Engineer

Aug 2020 – Present

Dell Technologies, Austin, TX

- Built enterprise SaaS portal used by 50,000+ business customers using Angular and Java Spring Boot
- Integrated OAuth 2.0 and SAML-based SSO for enterprise authentication across 12 client organisations
- Automated testing pipeline achieving 85% code coverage across frontend and backend services
- Designed and implemented RESTful microservices architecture reducing API response time by 45%
- Led migration of legacy jQuery codebase to Angular, improving page load speed by 60%

Junior Full Stack Developer

May 2018 – Jul 2020

Homeaway (Vrbo), Austin, TX

- Developed booking and reservation management system handling 10,000+ daily transactions
- Implemented server-side rendering with Next.js improving SEO scores by 60%
- Built internal analytics dashboard using D3.js and Python Flask for product and marketing teams
- Reduced database query times by 40% through query optimisation and strategic indexing

KEY PROJECTS

Enterprise SSO Integration — Unified authentication across 12 orgs using SAML/OAuth 2.0, eliminating 3 separate login portals

Analytics Dashboard — Real-time D3.js dashboard tracking 25 product KPIs, used daily by leadership
