EDUCATION

M.S. Cybersecurity

George Mason University
2013 – 2015

B.S. Computer Science

Virginia Tech
2009 – 2013

CERTIFICATIONS

- CISSP
- CEH (Certified Ethical Hacker)
- OSCP
- CompTIA Security+
- GIAC GCIA

SKILLS

SIEM / Tools

Splunk ES, CrowdStrike Falcon, Palo Alto Cortex XDR, Wireshark, Nmap, Metasploit, Burp Suite

Specialties

Penetration testing, Threat hunting, IR, Malware analysis, OSINT, Red/Blue team ops

Frameworks

NIST CSF, MITRE ATT&CK, ISO 27001, NIST 800-53, CIS Controls v8

Cloud Security

AWS Security Hub, Azure Sentinel, GCP Security Command Center, CSPM

PROFESSIONAL SUMMARY

Senior Cybersecurity Engineer with 9 years in threat detection, incident response, and security architecture for government and financial sector clients. Certified CISSP and CEH with a strong background in SIEM engineering, threat hunting, and conducting full-scope penetration tests across complex hybrid environments.

EXPERIENCE

Senior Cybersecurity Engineer

Jun 2020 – Present

Booz Allen Hamilton, Washington, DC

- Led security architecture review for DoD contractor ensuring NIST 800-53 compliance across 40+ systems
- Built custom Splunk threat-detection rules reducing false-positive alert volume by 60%
- Conducted 15+ penetration tests on web applications, APIs, and network infrastructure for federal clients
- Developed automated incident response playbooks cutting mean time to respond (MTTR) by 45%
- Performed adversarial threat modelling using MITRE ATT&CK; framework for 8 critical government systems

SOC Analyst L2

Jan 2017 – May 2020

Capital One, McLean, VA

- Monitored and triaged 500+ security alerts daily across cloud and on-premises environments
- Performed malware analysis and reverse engineering using IDA Pro and Ghidra on 30+ samples
- Implemented Splunk dashboards providing real-time threat visibility across 10,000+ endpoints
- Led threat-hunting campaigns identifying 3 previously undetected APT intrusions

Security Analyst

Aug 2015 – Dec 2016

Mandiant, Reston, VA

- Supported 10+ incident response engagements for Fortune 500 clients experiencing active breaches
- Authored post-incident reports and IOC packages distributed to client threat intelligence teams
