

Kevin Okafor

Cloud Security Engineer

kevin.okafor@email.com | (669) 555-0729 | github.com/kevinokafor | linkedin.com/in/kevinokafor | San Jose, CA

PROFESSIONAL SUMMARY

Cloud Security Engineer specialising in securing multi-cloud environments at enterprise scale. Expert in DevSecOps practices, cloud-native security tooling, and integrating automated security controls into CI/CD pipelines without sacrificing developer velocity. Achieved SOC 2 and ISO 27001 compliance across multi-cloud environments.

EXPERIENCE

Cloud Security Engineer

Cisco Systems, San Jose, CA

Mar 2021 – Present

- Designed and implemented zero-trust network architecture for 15,000-employee global organisation
- Built automated CSPM solution reducing cloud misconfiguration alerts by 80% across 50+ AWS/GCP accounts
- Integrated SAST/DAST tools into CI/CD pipelines scanning 1,000+ code commits daily
- Achieved SOC 2 Type II compliance across 12 AWS accounts and 3 GCP projects
- Developed Infrastructure-as-Code security guardrails using Terraform Sentinel and OPA policies

Security Engineer

Palo Alto Networks, Santa Clara, CA

Jul 2018 – Feb 2021

- Developed Python security automation scripts reducing manual security tasks by 70%
- Managed IAM policies, SCPs, and permission boundaries across AWS Organizations for 30+ accounts
- Led red team exercises simulating APT scenarios for internal and client environments
- Implemented secrets management using HashiCorp Vault, eliminating hardcoded credentials across 200+ services

KEY PROJECTS

Zero-Trust Network — Designed zero-trust micro-segmentation for 15,000-user Cisco global network

Security Automation Platform — Python-based platform auto-remediating 80% of cloud misconfigurations without human intervention

TECHNICAL SKILLS

Cloud Platforms	AWS, GCP, Azure — native security services and third-party tooling
Security Tools	Prisma Cloud, Wiz, Orca Security, Aqua Security, HashiCorp Vault, Trivy
DevSecOps	Snyk, Checkmarx, OWASP ZAP, Semgrep, SonarQube, Terraform Sentinel, OPA
Languages	Python, Bash, Go, HCL (Terraform), YAML
Compliance	SOC 2 Type II, ISO 27001, PCI-DSS, CIS Benchmarks, NIST 800-53

EDUCATION

B.S. Information Security

San Jose State University

2014 – 2018

CERTIFICATIONS

- AWS Security Specialty
- CCSP (Certified Cloud Security Professional)
- OSCP
- GCP Professional Cloud Security Engineer
