

Aisha Kamara

Penetration Tester / Red Team Operator

aisha.kamara@email.com | (617) 555-1054 | github.com/aishakamara | linkedin.com/in/aishakamara | Boston, MA

PROFESSIONAL SUMMARY

Offensive security specialist with 6 years conducting red team operations, adversarial simulations, and penetration tests for financial institutions and technology companies. Expert in social engineering, custom implant development, and delivering Board-level executive risk briefings on advanced threat scenarios.

EXPERIENCE

Red Team Operator

Jan 2021 – Present

JPMorgan Chase, Boston, MA

- Conducted full-scope red team engagements simulating nation-state and organised crime threat actors
- Developed custom C2 infrastructure and AV/EDR-evasive malware implants for covert red team operations
- Achieved initial access via phishing, watering-hole attacks, and supply-chain compromise simulations
- Delivered detailed technical and executive findings reports to CISO and Board Risk Committee
- Established red team programme operating model, runbooks, and annual assessment calendar

Penetration Tester

Jun 2018 – Dec 2020

Rapid7, Boston, MA

- Performed 40+ web, mobile, API, and network penetration tests for enterprise clients
- Developed custom exploitation tools and post-exploitation scripts in Python and PowerShell
- Published 3 CVEs for vulnerabilities discovered during client penetration test engagements
- Delivered security training workshops on offensive techniques to 5 client blue teams

TECHNICAL SKILLS

Offensive Ops	Red teaming, Phishing, Vishing, Physical intrusion testing, Social engineering
Technical Tools	Cobalt Strike, Metasploit, BloodHound, Mimikatz, Nessus, Burp Suite, Havoc C2
Exploit Dev	Python, PowerShell, C, Assembly (x86/x64), BOF development, shellcoding
Active Directory	Kerberoasting, Pass-the-Hash, DCSync, Golden/Silver Ticket, LLMNR poisoning
Reporting	Executive risk briefs, Technical PoC writeups, Remediation roadmaps

EDUCATION

B.S. Computer Science

MIT

2014 – 2018
