

Eric Johnson

Product Engineer – Mobile

eric.johnson@email.com | (214) 555-1495 | linkedin.com/in/ericjohnson-mobile | Dallas, TX

PROFESSIONAL SUMMARY

Mobile Product Engineer with 8 years building high-quality iOS and cross-platform applications for consumer and enterprise markets. Expert in React Native and Swift with a strong track record shipping polished, performant mobile experiences loved by millions of users. Proven ability to lead mobile squads and set engineering standards.

EXPERIENCE

Senior Mobile Product Engineer

Jan 2021 – Present

American Airlines, Fort Worth, TX

- Led mobile engineering for the AA app serving 25M+ monthly active travellers on iOS and Android
- Shipped real-time flight tracking feature reducing inbound customer service calls by 30%
- Rebuilt checkout and seat selection flow in React Native improving booking conversion rate by 18%
- Mentored 4 junior mobile engineers and established mobile coding standards across the team
- Launched biometric login (Face ID / Touch ID) adopted by 70% of active users within 3 months

Mobile Engineer

Jul 2017 – Dec 2020

AT&T, Dallas, TX

- Built account management mobile app in React Native with a 4.8-star App Store rating
- Implemented biometric authentication for secure and frictionless account access
- Reduced app binary size by 40% through asset optimisation and dynamic framework loading
- Integrated push notification system reaching 15M+ subscribers with 98% delivery rate

iOS Developer

Jun 2015 – Jun 2017

Sabre Corporation, Southlake, TX

- Developed Swift iOS features for B2B travel booking platform used by 400+ global airlines
- Migrated Objective-C legacy codebase to Swift, reducing crash rate by 65%

KEY PROJECTS

AA Real-Time Flight Tracker — End-to-end flight status feature with push alerts; 30% reduction in support calls

Biometric Auth Module — Shared RN biometric auth library adopted across 3 AA internal apps

TECHNICAL SKILLS

Mobile	React Native, Swift, SwiftUI, iOS SDK, Android (Kotlin), Expo
State	Redux, MobX, React Query, Context API, Zustand
Backend	Node.js, REST, GraphQL, WebSockets, Firebase
Testing	Detox, XCTest, Jest, Appium, Fastlane, TestFlight
Tools	Xcode, Android Studio, App Store Connect, Flipper, Sentry

EDUCATION

B.S. Computer Science

Texas Christian University

2011 – 2015

CERTIFICATIONS

- Apple Certified iOS Developer
- Google Associate Android Developer
- React Native Certified Expert – Infinite Red
