Portland, OR

EDUCATION

B.S. Computer Information Systems

Oregon State University

2011 – 2015

CERTIFICATIONS

- AWS Solutions Architect – Professional
- AWS DevOps Engineer – Professional
- Certified Kubernetes Administrator (CKA)
- HashiCorp Terraform Associate

SKILLS

AWS Services

EC2, EKS, RDS Aurora, S3, CloudFront, Lambda, SQS/SNS, Route 53, VPC, WAF

IaC

Terraform, AWS CDK, CloudFormation, Ansible, Pulumi

Containers

Docker, Kubernetes (EKS), Helm, ArgoCD, Istio, Karpenter

Observability

Prometheus, Grafana, CloudWatch, DataDog, PagerDuty, X-Ray

PROFESSIONAL SUMMARY

Senior Cloud Infrastructure Engineer with 9 years designing and operating mission-critical AWS environments for high-traffic consumer applications. Expert in infrastructure-as-code, site reliability engineering, chaos engineering, and cloud cost optimisation. Delivered \$2M+ in annual cloud savings while maintaining 99.99%+ uptime SLAs.

EXPERIENCE

Senior Cloud Infrastructure Engineer

Aug 2020 – Present

Nike, Beaverton, OR

- Designed multi-region active-active AWS architecture supporting Nike.com at 10M+ concurrent users during peak launches
- Implemented Terraform IaC across 30+ AWS accounts, reducing provisioning time from days to under 10 minutes
- Achieved 99.99% uptime SLA through chaos engineering programme and automated resilience testing
- Reduced annual AWS cloud spend by \$2.1M through rightsizing, Savings Plans, and serverless migration
- Led Kubernetes platform upgrade from EKS 1.21 to 1.28 across 3 regions with zero service disruption

Cloud Engineer

Mar 2017 – Jul 2020

Intel, Hillsboro, OR

- Migrated 200+ on-premises workloads to AWS using Well-Architected Framework review process
- Built Kubernetes platform supporting 500+ microservices with HPA and KEDA autoscaling
- Implemented GitOps workflow with ArgoCD reducing deployment errors and rollback time by 60%
- Established cloud tagging taxonomy and cost allocation model across 20+ business units

DevOps Engineer

Jun 2015 – Feb 2017

HealthSparq, Portland, OR

- Built CI/CD pipelines using Jenkins and AWS CodePipeline for HIPAA-compliant SaaS applications
- Introduced infrastructure monitoring with CloudWatch and PagerDuty reducing MTTD by 50%
