PROFESSIONAL SUMMARY

Platform and API Business Development Manager with 7 years growing developer ecosystems and platform adoption at infrastructure and developer-tools companies. Combines a technical background with strong commercial acumen to articulate value to both developer audiences and C-suite executives. Led BD efforts that onboarded 500+ enterprise developers and drove \$30M in platform ARR.

EXPERIENCE

BD Manager, Platform & API

Mar 2021 – Present

Twilio, San Francisco, CA

- Drove \$30M in new platform ARR through enterprise developer and technology partnership programmes
- Onboarded 500+ enterprise developers onto Twilio's platform through ISV and embedded integration GTM
- Negotiated OEM embedding agreements with 8 SaaS vendors incorporating Twilio messaging into core products
- Built developer evangelism partnership programme with 15 coding bootcamps and 10 university CS programmes
- Launched Twilio Marketplace partner tier generating 200+ marketplace listing-sourced opportunities per quarter

Senior Technology Partnerships Manager

Aug 2018 – Feb 2021

SendGrid (Twilio), Denver, CO

- Managed 40+ email and marketing technology integrations driving 25% of new logo pipeline
- Closed strategic embedding agreements with Shopify, WooCommerce, and BigCommerce
- Designed partner API certification programme reducing integration time from 3 months to 3 weeks
- Grew developer community from 25K to 75K registered developers through partnership-driven events

Business Development Associate

Jun 2016 – Jul 2018

PagerDuty, San Francisco, CA

- Generated \$6M in qualified pipeline through technology partner outreach and integration co-marketing
- Managed PagerDuty's integration directory growing from 150 to 350 listed integrations

KEY ACHIEVEMENTS

\$30M Platform ARR — Drove \$30M in new Twilio platform ARR through ISV/OEM and developer programmes

500+ Enterprise Devs — Onboarded 500+ enterprise developer accounts through partner-driven GTM in 2 years

Developer Community 3x — Grew SendGrid developer community from 25K to 75K registered devs in 2.5 years
